

BETTER INSIGHT. BETTER SCHOOLS.

By VERSI-FIT® Software, LLC

Our technology includes advanced data warehousing, business-intelligence, dashboards, and predictive-analytics that are far superior to limited reporting solutions. **Edvantage™** has been specifically designed with input from leading educators and people like you. Software anyone can easily use. The EDUCATIONAL ADVANTAGE to identify student potential and encourage growth. Tools to enable you, without being a technician, to recognize where strengths and weaknesses lie, helping your school make the best use of every opportunity. Because when educators are given better tools that allow easy access to information, they'll gain better insight, the insight needed to help create better schools. Information everyone use with confidence.

High expectations.

No one can fully appreciate the effort our educators devote to meeting the diverse yet comprehensive learning needs of each of our students. Everyday, our schools work toward equal access to quality public education, believing it is the right of every student.

Edvantage™, by VERSI-FIT Software, LLC, provides the leading analytic and reporting platform, and proven, best-practices to turn raw educational data into information, and information into knowledge. Knowledge that provides the education community with the insight needed to close achievement gaps, by improving learning and instruction.

Not all data warehousing solutions are the same.

Although VERSI-FIT is recognized as the premier analytic and reporting platform provider for education, what is more important, what makes the **Edvantage™** system so successful is that we understand and are committed to continuous improvement in education.

Proven success.

Perhaps that's why **Edvantage™** is the only solution with a 100% success rate in schools and school districts across the country. The popularity of **Edvantage™** also makes it the price leader. By leveraging standard loaders, the time and cost of implementation are reduced. **Edvantage™** includes everything you need for a trouble-free, rapid implementation, including a team of highly experienced Implementation Specialists who will guide your project from beginning to end.

This folder contains the **Edvantage™** Tier-1 suite of products that helps meet state and federal requirements for student improvement. To discuss the detailed needs of your district and how we can meet them, contact a VERSI-FIT Educational Professional at 920.882.1902.

There is a brighter future for students and for our schools. **Edvantage™** is helping every student, every teacher, every school and their information work better together.
